APPENDIX B

VITA SERIES PRODUCT PORTFOLIO

VitaActive Complete Meal

A nutrient-forward instant meal blend developed to provide a more filling and balanced nutrition experience for consumers seeking a complete daily meal alternative. VitaActive Complete Meal combines processed grains, plant proteins, milk components, fibre systems and functional nutritional support into a rich and satisfying formulation.

Designed for consumers with active schedules and limited meal preparation time, the product delivers a combination of calories, protein, fibre and micronutrients in a convenient sachet format. The formulation is intended to support sustained energy release, fullness and daily nourishment.

Key Benefits

Balanced Meal Replacement
Balanced meal replacement support
